

Ontinuing to deploy Geotubes in the south process area.

Shark dredge positioned against the bulkhead.

Continuing to roll out geotubes with forklifts.

Transporting crane mats.

Atlantic City Electric installing the electrical drop to the office trailers (11/12/15)

Work Performed by Sevenson

- Continued mobilization activities.
- Continued to mobilize the Shark dredge.
- Continued to fusion weld HDPE pipe.
- Continued to place HDPE pipe into the water.
- Continued to assemble the bag filter station.
- Continued to lay liner on northern and southern process pads before continued to deploy Geotube bags.

Planned Activities

- Continue mobilization of all site equipment, materials and infrastructure.
- Continue fusing HDPE Pipe.
- Mobilize the Shark Dredge.
- Have Rogers & Cipppolma suppy power to the process pad.
- Complete installation of the desanding shaker.

Safety Remarks

- No accidents or incidents observed or reported.
- Conducted daily safety meetings: Communication

Work Performed by Subcontractors

- Watersolve onsite to contnue to coordinate mobilization of the geotube system.
- Redgroup onsite to assist with dredge preparation.
- Rogers and Cippolona was onsite to continue electric installation.

Remarks/Verbal Directives

- None

Equipment/Materials Deli	ivered to Site
---------------------------------	----------------

- Miscellaneous safety materials.
- Miscellaneous hardware.
