***EXPLANATION OF ZONE DESIGNATIONS**

ZONE

A Areas of 100-year flood, base flood elevations and flood hazard factors not determined.

A0 Areas of 100-year shallow flooding with depth from 1 to 3 feet; product of flood depth (feet) and velocity (feet per second) less than 15.

A1-A99 Areas of 100-year flood, base flood elevations and flood hazard factors determined.

A99 Areas of 100-year flood to be protected by a flood protection system under construction; base flood elevation, system under construction; base flood elevation, system under construction; base flood elevation, system under construction.

B Areas between limits of 100-year flood and 500-year flood; flood hazard factors not determined.

C Areas of minimal flooding, (no shading).

D Areas of undetermined, but positive, flood hazard factors.

V Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors not determined.

V0 Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors not determined.

V1-V99 Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors determined.

NOTES TO USER

Factors not in the special flood hazard areas (zones A and V) may be protected by flood control structures.

The map is for flood insurance purposes only; it does not necessarily show all areas subject to flooding in the community or all pertinent features outside special flood hazard areas.

For adjoining map panels, see separately printed index to map.

Coastal base flood elevations shown on this map include the effects of wave action.

Coastal base flood elevations apply only inland of the shoreline shown on this map.
