#### Independent Auditor's Report

The Honorable Mayor and Members of Borough Council Borough of Stone Harbor, New Jersey

#### **Report on the Financial Statements**

We have audited the accompanying balance sheets - regulatory basis of the various funds and account group of the Borough of Stone Harbor, as of December 31, 2019 and 2018, the related statement of operations and changes in fund balance - regulatory basis for the years then ended, and the related statement of revenues - regulatory basis and statement of expenditures - regulatory basis of the various funds for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the Borough's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the basis of accounting prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the "Division"), and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Basis for Adverse Opinion on U.S Generally Accepted Accounting Principles.

As described in Note 1 of the financial statements, the financial statements are prepared by the Borough of Stone Harbor on the basis of the financial reporting provisions prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of New Jersey.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

#### Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the Borough of Stone Harbor as of December 31, 2019 and 2018, or changes in financial position for the years then ended.

#### Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the regulatory basis balance sheets and account group as of December 31, 2019 and 2018, the regulatory basis statements of operations for the years then ended and the regulatory basis statements of revenues and expenditures for the year ended December 31, 2019 in accordance with the basis of financial reporting prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey as described in Note 1.

#### Other Matters

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Borough of Stone Harbor's basic financial statements. The supplementary information listed in the table of contents and the letter of comments and recommendations section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental information listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. The letter of comments and recommendation section has not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information listed in the table of contents is presented for the purposes of additional analysis and is not a required part of the financial statements. Because of the significance of the variances between the regulatory basis of accounting and accounting principles generally accepted in the United States of America, it is inappropriate to and we do not express an opinion on the supplementary information referred to above.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 10, 2020 on our consideration of the Borough of Stone Harbor's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Borough of Stone Harbor's internal control over financial reporting and compliance.

Very truly yours,

### NOTES TO FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2019 AND 2018

### **NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### A. Reporting Entity

Except as noted below, the financial statements of the Borough of Stone Harbor include every board, body, office or commission supported and maintained wholly or in part by funds appropriated by the Borough of Stone Harbor, as required by N.J.S. 40A:5-5.

Component units are legally separate organizations for which the entity is financially accountable. The entity is financially accountable for an organization if the entity appoints a voting majority of the organization's governing board and (1) the entity is able to significantly influence the programs or services performed or provided by the organization; or (2) the entity is legally entitled to or can otherwise access the organization's resources; the entity is legally obligated or has otherwise assumed the responsibility to finance the deficits of or provide financial support to the organization; or the entity is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the entity in that the entity approves the budget, the issuance of debt or the levying of taxes. The entity has no component units.

#### **B.** Description of Funds

The accounting policies of the Borough of Stone Harbor conform to the accounting principles applicable to municipalities which have been prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Such principles and practices are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with the respect to public funds. Under this method of accounting, the Borough of Stone Harbor accounts for its financial transactions through the following separate funds:

<u>Current Fund</u> -- resources and expenditures for governmental operations of a general nature, including Federal and State grant funds.

<u>Trust Funds</u> -- receipts, custodianship and disbursement of funds in accordance with the purpose for which each reserve was created.

<u>General Capital Fund</u> -- receipt and disbursement of funds for the acquisition of general facilities, other than those acquired in the Current Fund.

<u>Water and Sewer Operating and Capital Funds</u> -- account for the operations of the water and sewer utility and acquisition of water and sewer capital facilities other than those acquired in the Current and General Capital Funds.

General Fixed Assets Account Group -- All fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the general fixed assets account group, rather than in governmental funds.

### C. Basis of Accounting

The accounting principles and practices prescribed for municipalities by the State of New Jersey differ in certain respects from generally accepted accounting principles applicable to local governmental units. The more significant policies in New Jersey follow.

A modified accrual basis of accounting is followed with minor exceptions.

Revenues -- are recorded as received in cash except for certain amounts, which are due from other governmental units. Receipts from Federal and State grants are realized as revenue when anticipated in the entity budget. Receivables for property taxes are recorded with offsetting reserves on the balance sheet of the entity's Current Fund, in addition the receivables for utility billings are recorded with offsetting reserves in the Utility Fund; accordingly, such amounts are not recorded as revenue until collected. Other amounts that are due to the entity which are susceptible to accrual are also recorded as receivables with offsetting reserves and recorded as revenue when received.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Expenditures -- are recorded on the "budgetary" basis of accounting. Generally expenditures are recorded when an amount is encumbered for goods or services through the issuance of a purchase order in conjunction with the Encumbrance Accounting System. Outstanding encumbrances at December 31 are reported as a cash liability in the financial statements. Appropriation reserves covering unencumbered appropriation balances are automatically created at December 31st of each year and recorded as liabilities, except for amounts which may be canceled by the Governing Body. Appropriation reserves are available, until lapsed at the close of the succeeding year, to meet specific claims, commitments or contracts incurred during the preceding fiscal year. Lapsed appropriation reserves are recorded as income. Appropriations for principal payments on outstanding general capital bonds and notes are provided on the cash basis; interest on general capital indebtedness is on the cash basis; interest on utility capital indebtedness is on the accrual basis. Compensated absences are treated on a pay as you go basis with no amount charged to operations in the year incurred.

<u>Foreclosed Property</u> -- Foreclosed property is recorded in the Current Fund at the assessed valuation when such property was acquired and is fully reserved.

<u>Interfunds</u> -- Interfund receivables in the Current Fund are recorded with offsetting reserves which are created by charges to operations. Income is recognized in the year the receivables are liquidated. Interfund receivables in the other funds are not offset by reserves.

<u>Inventories of Supplies</u> - The cost of inventories of supplies for all funds are recorded as expenditures at the time individual items are purchased. The cost of inventories is not included on the various balance sheets.

<u>General Fixed Assets</u> -- The entity has developed a fixed assets accounting and reporting system, as promulgated by the Division of Local Government Services, which differs in certain respects from generally accepted accounting principles.

As required by New Jersey Statutes, foreclosed property is reported in the current operating fund of the municipality.

Fixed assets used in governmental operations (general fixed assets) are accounted for in the General Fixed Assets Account Group. Public domain ("infrastructure") general fixed assets consisting of certain improvements other than buildings, such as roads, bridges, curbs and gutters, streets and sidewalks and drainage systems are not capitalized.

All fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available except for land which is valued at estimated market value on the date of acquisition. Expenditures for long lived assets with an original cost in excess of \$2,000.00 are capitalized.

No depreciation has been provided for in the financial statements.

Expenditures for construction in progress are recorded in the Capital funds until such time as the construction is completed and put into operation.

Fixed assets acquired through grants in aid or contributed capital have not been accounted for separately.

Property and equipment purchased by the Water and Sewer Utility Fund are recorded in the capital account at cost and are adjusted for disposition and abandonment. The amounts shown do not purport to represent reproduction costs or current value. Contributions in aid of construction are not capitalized.

The balance in the Reserve for Amortization and Deferred Reserve for Amortization accounts in the utility capital fund represents charges to operations for the costs of acquisitions of property, equipment and improvements.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

<u>Levy of Taxes</u> -- The County Board of Taxation certifies the tax levy of the municipality each year. The tax levy is based on the assessed valuation of taxable property within the municipality. Taxes are payable on the first day of February, May, August, and November. Any taxes that have not been paid by 11th day of the 11th month in the fiscal year levied are subject to being included in the tax sale and the lien enforced by selling the property in accordance with NJSA 54:5 et. seq.

The municipality is responsible for remitting 100% of the school and county taxes to the respective agency. The loss for delinquent or uncollectible accounts is borne by the municipality and not the school district or county.

Interest on Delinquent Taxes – It is the policy of the Borough of Stone Harbor to collect interest for the nonpayment of taxes or assessments on or before the date when they would become delinquent. The Tax Collector is authorized to charge eight percent (8%) per annum on the first \$1,500.00 of taxes becoming delinquent after due date and eighteen percent (18%) per annum on any amount of taxes in excess of \$1,500.00 becoming delinquent after due date and if a delinquency is in excess of \$10,000.00 and remains in arrears beyond December 31st, an additional penalty of six percent (6%) shall be charged against the delinquency. There is a ten day grace period.

<u>Levy of Utility Charges</u> – The entity operates a water and sewer utility fund. Rates are determined by ordinance and changed as necessary. Water and sewer charges are based on flat fees and usage based on the type of entity. Charges are billed annually and due in quarterly installments on December 1, March 1, June 1 and September 1.

Interest on Delinquent Utility Charges -- It is the policy of the entity to collect interest for the nonpayment of utility charges on or before the date when they would become delinquent. The Utility Collector is authorized to charge eight percent (8%) per annum on the first \$1,500.00 of charges becoming delinquent after due date and eighteen percent (18%) per annum on any amount of charges in excess of \$1,500.00 becoming delinquent after due date.

<u>Capitalization of Interest</u> -- It is the policy of the Borough of Stone Harbor to treat interest on projects as a current expense and the interest is included in both the current and utility operating budgets with the exception of certain projects financed by the New Jersey Environmental Infrastructure Trust.

<u>Use of Estimates</u> -- The preparation of financial statements in conformity with generally accepted accounting principles or the statutory basis of accounting requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

### D. Required Financial Statements

The State of New Jersey requires the following financial statements to be presented for each fund on the regulatory basis of accounting: Balance Sheet, Statement of Operations and Changes in Fund Balance, Statement of Revenue and Statement of Expenditures. These statements differ from those presented under Generally Accepted Accounting Principles, which requires a Statement of Net Position and Statement of Activities in addition to the fund financial statements.

### E. Comparative Data

Comparative total data for the prior year has been presented in the accompanying Balance Sheets and Statement of Operations in order to provide an understanding of changes in the entity's financial position. However, comparative (i.e., presentation of prior year totals by fund type) data have not been presented in the Statement of Revenue-Regulatory Basis and Statement of Expenditures-Regulatory Basis since their inclusion would make the statements unduly complex and difficult to read.

### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

### F. Recent Accounting Pronouncements Not Yet Effective

In June 2018, the Governmental Accounting Standards Board (GASB) issued Statement No. 89 "Accounting for Interest Cost Incurred before the End of a Construction Period". This statement, which is effective for fiscal periods beginning after December 15, 2020, will not have any effect on the Borough's financial reporting.

In May 2019, the Governmental Accounting Standards Board (GASB) issued Statement No. 91, "Conduit Debt Obligations". This statement is effective for fiscal periods beginning after December 15, 2020, will not have any effect on the Borough's financial reporting.

In January 2020, the Governmental Accounting Standards Board (GASB) issued Statement No. 92, "Omnibus". This statement is effective for fiscal periods beginning after June 15, 2020, will not have any effect on the Borough's financial reporting.

In March 2020, the Governmental Accounting Standards Board (GASB) issued Statement No. 93, "Replacement of Interbank Offered Rates". This statement is effective for fiscal periods beginning after June 15, 2020, will not have any effect on the Borough's financial reporting.

In March 2020, the Governmental Accounting Standards Board (GASB) issued Statement No. 94, "Public-Private and Public-Public Partnerships and Availability Payment Arrangements". This statement is effective for fiscal periods beginning after June 15, 2022, will not have any effect on the Borough's financial reporting.

In May 2020, the Governmental Accounting Standards Board (GASB) issued Statement No. 96, "Subscription-Based Information Technology Arrangements". This statement is effective for fiscal periods after June 15, 2022, will not have any effect on the Borough's financial reporting.

#### **NOTE 2: BUDGETARY INFORMATION**

Under New Jersey State Statutes, the annual budget is required to be a balanced cash basis document. To accomplish this, the municipality is required to establish a reserve for uncollected taxes. The 2019 and 2018 statutory budgets included a reserve for uncollected taxes in the amount of \$465,000 and \$465,000.00, respectively. To balance the budget, the municipality is required to show a budgeted fund balance. The amount of fund balance budgeted to balance the 2019 and 2018 statutory budgets was \$1,653,999.01 and \$1,560,843.47, respectively. In addition, the entity operates a self liquidating water and sewer utility. Under New Jersey Statutes a separate budget for the utility must be adopted concurrently with the operating budget of the entity. The utility budget must be a balanced cash basis budget with fund balance being used to balance the budget. The amount of fund balance budgeted to balance the 2019 and 2018 statutory budgets was \$413,198.00 and \$419,779.10.

#### **NOTE 2: BUDGETARY INFORMATION - Continued**

The Chief Financial Officer has the discretion of approving intra department budgetary transfers throughout the year. Inter department transfers are not permitted prior to November 1. After November 1 these transfers can be made in the form of a resolution and approved by Borough Council.

The following significant budget transfers were approved in the 2019 and 2018 calendar years:

#### NOTE 2: BUDGETARY INFORMATION - Continued

The Borough may make emergency appropriations, after the adoption of the budget, for a purpose which was not foreseen at the time the budget was adopted or for which adequate provision was not made therein. This type of appropriation shall be made to meet a pressing need for public expenditure to protect or promote the public health, safety, morals or welfare or to provide temporary housing or public assistance prior to the next succeeding fiscal year.

Emergency appropriations, except those classified as a special emergency, must be raised in the budgets of the succeeding year. Special emergency appropriations are permitted to be raised in the budgets of the succeeding three or five years. The Borough approved a special emergency appropriations in the amount of \$250,000.00 in 2016 and \$67,250.00 in 2017. The 2016 Special Emergency was for the Revaluation of Real Property and the 2017 Special Emergency was for the Master Plan. The unfunded balances of all Special Emergencies as of December 31, 2017 was \$250,250.00. The Borough also approved an emergency appropriation of \$35,000 in 2018. The emergency was for a Return of a Prior Year Overpayment to FEMA.

### **NOTE 3: INVESTMENTS**

As of December 31, 2019 and 2018, the municipality had no investments.

**Interest Rate Risk.** The municipality does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, New Jersey Statutes 40A:5-15.1(a) limits the length of time for most investments to 397 days.

**Credit Risk**. New Jersey Statutes 40A:5-15.1(a) limits municipal investments to those specified in the Statutes. The type of allowable investments are Bonds of the United States of America or of the local unit or school districts of which the local unit is a part of: obligations of federal agencies not exceeding 397 days; government money market mutual funds; the State of New Jersey Cash Management Plan; local government investment pools; or repurchase of fully collateralized securities.

Concentration of Credit Risk. The municipality places no limit on the amount the entity can invest in any one issuer.

#### **NOTE 4: CASH**

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The municipality's policy is based on New Jersey Statutes requiring cash be deposited only in New Jersey based banking institutions that participate in the New Jersey Governmental Depository Protection Act (GUDPA) or in qualified investments established in New Jersey Statutes 40A:5-15.1(a) that are treated as cash equivalents. Under the act, all demand deposits are covered by the Federal Deposit Insurance Corporation (FDIC). Public funds owned by the municipality in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled trust funds such as salary withholdings, bail funds or funds that may pass to the municipality relative to the happening of a future condition. As of December 31, 2019 and 2018, \$2,681,363.28 and 2,001,607.80 of the municipality's bank balance of \$19,759,870.72 and \$20,822,751.12 was exposed to custodial credit risk.

### **NOTE 11: PENSION FUNDS**

### Description of Plans

Substantially all of the entity's employees participate in the Public Employees' Retirement System (PERS) and Police and Fireman's Retirement System (PFRS) cost sharing multiple-employer defined benefit pension plans which have been established by State Statute and are administered by the New Jersey Division of Pensions and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of the System will be assumed by the State of New Jersey should the system terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the systems. This report may be obtained by writing to the Division of Pension and Benefits, PO Box 295, Trenton, New Jersey 08625 or the report can be accessed on the internet at <a href="http://www.state.nj.us/treasury/pensions/annrprts.shtml">http://www.state.nj.us/treasury/pensions/annrprts.shtml</a>.

### Public Employees' Retirement System

The Public Employees' Retirement System was established in January, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The PERS is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full time employees of the State or any county, municipality, school district or public agency provided the employee is not required to be a member of another State-administered retirement system.

#### **NOTE 11: PENSION FUNDS - Continued**

#### Police and Fireman's Retirement System

The contribution policy for the Police and Fireman's Retirement System (PFRS) is set by N.J.S.A. 43:16 and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. PFRS provides for employee contributions of 10.0% of employees' annual compensation, as defined. Employers are required to contribute to an actuarially determined rate.

#### Funding Policy

The contribution policy is set by N.J.S.A. 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997 and N.J.S.A. 18:66, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. PERS provided for employee contributions of 7.50% of employee's annual compensation, as defined. Employers are required to contribute to an actuarially determined rate in PERS. The entity's contributions to PERS for the years ended December 31, 2019, 2018, and 2017 were \$389,325.00, \$369,330.36 and \$342,074.00.

The contribution policy for the PFRS is set by N.J.S.A. 43:16 and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. PFRS provides for employee contributions of 10.0% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate. The entity's contributions to PFRS for the years ended December 31, 2019, 2018, and 2017 were \$283,817.00, \$333,425.00and \$319,322.00.

The total payroll for the year ended December 31, 2019, 2018 and 2017 was \$4,934,978.31, \$4,828,651.12 and \$4,749,195.54. Payroll covered by PFRS was \$1,144,334.00, \$1,123,608.00 and \$1,050,537.00. Payroll covered by PERS was \$2,751,589.00, \$2,659,621.00 and \$2,674,477.00.

### Significant Legislation

Chapter 78, P.L. 2011, effective June 28, 2011 made various changes to the manner in which the Public Employees' Retirement System (PERS) and the Police and Firemen's Retirement System (PFRS) operate and to the benefit provisions of those systems.

Chapter 78's provisions impacting employee pension and health benefits include:

- New members of the PERS hired on or after June 28, 2011 (Tier 5 members) will need 30 years of creditable service and age 65 for receipt of the early retirement benefit without a reduction of ¼ of 1% for each month that the member is under age 65.
- The eligibility age to qualify for a service retirement in the PERS is increased from age 63 to 65 for Tier 5 members.
- The annual benefit under special retirement for new PFRS members enrolled after June 28, 2011 (Tier 3 members), will be 60% instead of 65% of the member's final compensation plus 1% for each year of creditable service over 25 years but not to exceed 30 years.
- Increases in active member contribution rates. PERS active member rates increase from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years; PFRS active member rate increase from 8.5% to 10%.
- For fiscal year 2013, the member contribution rates increased in October 2011. The phase-in of the additional incremental member contribution rates for PERS members will take place in July of each subsequent fiscal year.
- The payment of automatic cost-of-living adjustment (COLA) additional increases to current and future retirees and beneficiaries is suspended until reactivated as permitted by this law.

#### **NOTE 11: PENSION FUNDS - Continued**

- New employee contribution requirements towards the cost of employer-provided health benefit coverage. Employees are required to contribute a certain percentage of the cost of coverage. The rate of contribution is determined based on the employee's annual salary and the selected level of coverage. The increased employee contributions will be phased in over a 4-year period for those employed prior to Chapter 78's effective date with a minimum contribution required to be at least 1.5% of salary.
- In addition, this new legislation changes the method for amortizing the pension systems' unfunded accrued liability (from a level percent of pay method to a level dollar of pay).

Chapter 1, P.L. 2010, effective May 21, 2010, made a number of changes to the State-administered retirement systems concerning eligibility, the retirement allowance formula, the definition of compensation, the positions eligible for service credit, the non-forfeitable right to a pension, the prosecutor's part of the PERS, special retirement under the PFRS, and employer contributions to the retirement systems.

Also, Chapter 1, P.L. 2010 changed the membership eligibility criteria for new members of PERS from the amount of annual compensation to the number of hours worked weekly. Also, it returned the benefit multiplier for new members of PERS to  $1/60^{th}$  from  $1/55^{th}$ , and it provided that new members of PERS have the retirement allowance calculated using the average annual compensation for the last five years of service instead of the last three years of service. New members of PERS will no longer receive pension service credit from more than one employer. Pension service credit will be earned for the highest paid position only. For new members of the PFRS, the law capped the maximum compensation that can be used to calculate a pension from these plans at the annual wage contribution base for social security, and requires the pension to be calculated using a three year average annual compensation instead of the last year's salary. This law also closed the Prosecutors Part of the PERS to new members and repealed the law for new members that provided a non-forfeitable right to receive a pension based on the laws of the retirement system in place at the time 5 years of pension service credit is attained. The law also requires the State to make its full pension contribution, defined a  $1/7^{th}$  of the required amount, beginning in fiscal years 2012.

Chapter 3, P.L. 2010, effective May 21, 2010, replaced the accidental and ordinary disability retirement for new members of the PERS with disability insurance coverage similar to that provided by the State to individuals enrolled in the State's Defined Contribution Retirement Program.

Chapter 92, P.L. 2007 implemented certain recommendations contained in the December 1, 2006 report of the Joint Legislative Committee on Public Employee Benefits Reform; established a DCRP for elected and certain appointed officials, effective July 1, 2007; the new pension loan interest rate became 4.69% per year, and an \$8.00 processing fee per loan was charged, effective January 1, 2008. The legislation also removed language from existing law that permits the State Treasurer to reduce employer pension contributions needed to fund the Funds and Systems when excess assets are available.

### **NOTE 12: PENSION LIABILITIES**

In 2012, the Governmental Accounting Standards Board issued GASB statement 68. This statement is effective for fiscal years beginning after June 15, 2014. This statement changes the method of reporting the municipality's pension liabilities. However, due to the fact that the municipality reports on the regulatory basis of accounting, no financial statement impact will be recognized.

The following represents the municipality's pension liabilities as June 30, 2019:

### **Public Employees' Retirement System**

The Municipality has a liability of \$6,612,026.00 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018 that was rolled forward to June 30, 2019. The Municipality's proportion of the net pension liability was based on a projection of the Municipality's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2019, the Municipality's proportion would be 0.03669579570%, which would be a decrease of 5.79% from its proportion measured as of June 30, 2018.

For the year ended December 31, 2019, the Municipality would have recognized pension expense of \$249,006.00. At December 31, 2019, the Municipality would report deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows		Deferred Inflows	
	of Resources		of Resources	
Differences between expected & actual experience	\$	118,677.00	\$	(29,209.00)

#### **Actuarial Assumptions**

The total pension liability for the June 30, 2019 measurement date was determined by an actuarial valuation as of July 1, 2018, which was rolled forward to June 30, 2019. This actuarial valuation used the following assumptions, applied to all periods in the measurement:

Inflation rate

Price 2.75%

Wage 3.25%

Salary increases:

Through 2026 2.00% – 6.00% (based on years of service)

Thereafter 3.00% - 7.00% (based on years of service)

Investment rate of return: 7.00%

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 200 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disable retirees were base on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on generational basis. Mortality improvement is based on Scale MP-2019.

The actuarial assumptions used in the July 1, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018.

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2019) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2019 are summarized in the following table:

**NOTE 12: PENSION LIABILITIES - Continued**

#### Discount Rate

The discount rate used to measure the total pension liability was 6.28% as of June 30, 2019. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.50% as of June 30, 2019, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on 70% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2057. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2057 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the Municipality's proportionate share of the net pension liability to changes in the discount rate.

The following presents the Municipality's proportionate share of the net pension liability calculated using the discount rate of 6.28%, as well as what the Municipality's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (5.28%) or 1-percentage point higher (7.28%) than the current rate:

### Police and Firemen's Retirement System

The Municipality has a liability of \$4,264,340.00 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as July 1, 2018 that was rolled forward to June 30, 2019. The Municipality's proportion of the net pension liability was based on a projection of the Municipality's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2019, the Municipality's proportion would be 0.03484559030%, which would be an increase of 20.03% from its proportion measured as of June 30, 2018.

For the year ended December 31, 2019, the Municipality would have recognized pension expense of \$352,293.00. At December 31, 2019, the Municipality would have reported deferred outflows of resources and deferred inflows of resources related to PFRS from the following sources:

### **Actuarial Assumptions**

The total pension liability for the June 30, 2019 measurement date was determined by an actuarial valuation of July 1, 2018, which was rolled forward to June 30, 2019. This actuarial valuation used the following assumptions, applied to all periods in the measurement:

Price 2.75%

Wage 3.25%

Salary increases:

Through all future years 3.25% - 15.25% (based on years of service)

Investment rate of return: 7.00%

Pre-retirement mortality rates were based on the Pub-2010 Safety Employee mortality table with a 105.6% adjustment for males and 102.5% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 Safety Retiree Below-Median Income Weighted mortality table with a 96.7% adjustment for males and 96.0% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. For beneficiaries (contingent annuitants), the Pub-2010 General Retiree Below-Median Income Weighted mortality table was used, unadjusted, and with future improvement from the base year of 2010 on a generational basis. Disability rates were based on the Pub-2010 Safety Disabled Retiree mortality table with a 152% adjustment for males and 109/3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2019.

The actuarial assumptions used in the July 1, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2013 to June 30, 2018.

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2019) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. #### Discount Rate

The discount rate used to measure the total pension liability was 6.85% as of June 30, 2019. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00%, and a municipal bond rate of 3.50% as of June 30, 2019, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the non-employer contributing entity will be made based 70% of the actuarially determine contributions for the State employer and 100% of actuarially determined contributions for local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2076. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2076, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the Municipality's proportionate share of the net pension liability to changes in the discount rate.

The following presents the collective net pension liability of the participating employers as of June 30, 2019, calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

In addition to the PFRS liabilities listed above, a special funding situation exists for the Local employers of the Police and Fire Retirement System of New Jersey. The State of New Jersey, as a non-employer, is required to pay the additional costs incurred by Local employers under Chapter 8, P.L. 2000, Chapter 318, P.L. 2001, Chapter 86, P.L. 2001, Chapter 511, P.L. 1991, Chapter 109, P.L. 1979, Chapter 247, P.L. 1993 and Chapter 201, P.L. 2001. The June 30, 2019 State special funding situation net pension liability amount of \$1,932,374,825.00 is the accumulated differences between the annual actuarially determined State obligation under the special funding situation and the actual State contribution through the valuation date. The fiscal year ending June 30, 2019 State special funding situation pension expense of \$224,526,138.00 is the actuarially determined contribution amount that the State owes for the fiscal year ending June 30, 2019. The pension expense is deemed to be a State administrative expense due to the special funding situation.

The contribution policy for PFRS is set by N.J.S.A. 43:16A and required contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's contribution amount is based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. For fiscal year 2019, the State contributed an amount less than the actuarially determined amount.

Although the liabilities related to the special funding situation are the liabilities of the State of New Jersey, the proportionate share of the statewide liability allocated to the Municipality was 0.03484559030% for 2019. The net pension liability amount allocated to the Municipality was \$673,347.00. For the fiscal year ending June 30, 2019 State special funding situation pension expense of \$78,237.00 is allocated to the Municipality.

Detailed information about the pension plan's fiduciary net position is available in the separately issued PFRS financial report.

#### **NOTE 13 – OTHER POST-RETIREMENT BENEFITS**

General Information about the Plan:

The Borough offers Other Post-Retirement Benefits (OPEB) to its employees through the State Health Benefit Local Government Retired Employees Plan (the Plan) a cost-sharing multiple employer defined benefit other postemployment benefit plan with a special funding situation. It covers employees of local government employers that have adopted a resolution to participate in the Plan. For additional information about the Plan, please refer to the State of New Jersey (the State), Division of Pensions and Benefits' (the Division) Comprehensive Annual Financial Report (CAFR), which can be found at:

https://www.state.nj.us/treasury/pensions/financial-reports.shtml.

#### NOTE 13 - OTHER POST-RETIREMENT BENEFITS - Continued

The Plan provides medical and prescription drug to retirees and their covered dependents of the participating employers. Under the provisions of Chapter 88, P.L 1974 and Chapter 48, P.L. 1999, local government employers electing to provide postretirement medical coverage to their employees must file a resolution with the Division. Under Chapter 88, local employers elect to provide benefit coverage based on the eligibility rules and regulations promulgated by the State Health Benefits Commission. Chapter 48 allows local employers to establish their own age and service eligibility for employer paid health benefits coverage for retired employees. Under Chapter 48, the employer may assume the cost of post retirement medical coverage for employees and their dependents who:

- 1) retired on a disability pension;
- or 2) retired with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer;
- or 3) retired and reached the age of 65 with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer;
- or 4) retired and reached age 62 with at least 15 years of service with the employer. Further, the law provides that the employer paid obligations for retiree coverage may be determined by means of a collective negotiations agreement.

In accordance with Chapter 330, P.L. 1997, which is codified in N.J.S.A 52:14-17.32i, the State provides medical and prescription coverage to local police officers and firefighters, who retire with 25 years of service or on a disability from an employer who does not provide postretirement medical coverage. Local employers were required to file a resolution with the Division in order for their employees to qualify for State-paid retiree health benefits coverage under Chapter 330. The State also provides funding for retiree health benefits to survivors of local police officers and firefighters who die in the line of duty under Chapter 271, P.L.1989.

Pursuant to Chapter 78, P.L, 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

#### Allocation Methodology:

GASB Statement No. 75 requires participating employers in the Plan to recognize their proportionate share of the collective net OPEB liability, collective deferred outflows of resources, collective deferred inflows of resources, and collective OPEB expense, however under the Regulatory Basis of Accounting followed by the Borough these amounts are not accrued or recorded in the financial statements and the information listed in this note is for disclosure purposes only. Statewide across all member employers, the special funding situation's and nonspecial funding situation's net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense are based on separately calculated total OPEB liabilities. For the special funding situation and the nonspecial funding situation, the Collective Total OPEB liabilities for the year ended June 30, 2019 were \$5,637,151,775.00 and \$8,182,092,807.00, respectively. The nonspecial funding situation's net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense are further allocated to employers based on the ratio of the plan members of an individual employer to the total members of the Plan's non special funding situation during the measurement period July 1, 2018 through June 30, 2019. Employer and non-employer allocation percentages have been rounded for presentation purposes.

#### NOTE 13 - OTHER POST-RETIREMENT BENEFITS - Continued

#### Special Funding Situation:

Under Chapter 330, P.L. 1997, the State shall pay the premium or periodic charges for the qualified local police and firefighter retirees and dependents equal to 80 percent of the premium or periodic charge for the category of coverage elected by the qualified retiree under the State managed care plan or a health maintenance organization participating in the program providing the lowest premium or periodic charge. The State also provides funding for retiree health benefits to survivors of local police officers and firefighters who die in the line of duty under Chapter 271, P.L.1989.

Therefore, these employers are considered to be in a special funding situation as defined by GASB Statement No. 75 and the State is treated as a non-employer contributing entity. Since the local participating employers do not contribute under this legislation directly to the plan, there is no net OPEB liability, deferred outflows of resources or deferred inflows of resources to report in the financial statements of the local participating employers related to this legislation. However, the notes to the financial statements of the local participating employers must disclose the portion of the non-employer contributing entities' total proportionate share of the collective net OPEB liability that is associated with the local participating employer.

#### Net OPEB Liability:

#### Components of Net OPEB Liability

The components of the collective net OPEB liability of the participating employers in the Plan as of June 30, 2019 is as follows:

	June 30, 2019				
	Collective Total		Proportionate Share		
Total OPEB Liability	\$ 13,819,244,582.00	\$	7,785,071.00

At June 30, 2019 the Borough's proportionate share of the Collective Net OPEB Liability was \$7,631,179.00. The State's proportionate share for the Special Funding Situation that is associated with the Borough is \$4,263,147.00. The Borough's proportion of the Collective Net OPEB Liability was 0.056335% which was a decrease from the prior year of 21.16%. The State's proportionate share attributable to the Borough of the Collective Net OPEB Liability for the Special Funding Situation was 0.077151% which was an increase from the prior year of 68.64%.

State's proportionate share that is associated with the Borough		4,263,147.00
Total	<b>\$</b>	11,894,326.00

#### NOTE 13 - OTHER POST-RETIREMENT BENEFITS - Continued

For the Year ended June 30, 2019 the Borough's Total OPEB Expense was (\$788,751.00) and the State of New Jersey realized Total OPEB Expense in the amount of \$56,509.00 for its proportionate share of Total OPEB Expense that is associated with the Borough.

The total OPEB liability as of June 30, 2019 was determined by an actuarial valuation as of June 30, 2018, which was rolled forward to June 30, 2019. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate 2.50%

Salary increases\*:

PERS Initial fiscal year applied

Rate through 2026 2.00% to 6.00% Rate thereafter 3.00% to 7.00%

**PFRS**

PFRS: Pub-2010 Safety classification headcount weighted mortality with fully generational mortality improvement projections from the central year using Scale MP-2019

Actuarial assumptions used in the July 1, 2018 valuation were based on the results of the PFRS and PERS experience studies prepared for July 1, 2013 to June 30, 2018 and July 1, 2014 to June 30, 2018, respectively.

100% of active members are considered to participate in the Plan upon retirement.

#### Health Care Trend Assumptions

For pre-Medicare medical benefits, the trend is initially 5.7% and decreases to a 4.5% long-term trend rate after eight years. For post-65 medical benefits, the actual fully-insured Medicare Advantage trend rates for fiscal year 2020 are reflected. The assumed post-65 medical trend is 4.5% for all future years. For prescription drug benefits, the initial trend rate is 7.5% and decreases to a 4.5% long-term trend rate after eight years.

#### Discount Rate

The discount rate for June 30, 2019 was 3.50%. This represents the municipal bond return rate as chosen by the State. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

Sensitivity of Net OPEB Liability to Changes in the Discount Rate

<sup>\*</sup> Salary increases are based on years of service within the respective plan.

#### NOTE 13 - OTHER POST-RETIREMENT BENEFITS - Continued

The following presents the Net OPEB liability as of June 30, 2019, calculated using the discount rate as disclosed above as well as what the Net OPEB liability would be if it was calculated using a discount rate that is 1-percentage point lower or 1-percentage-point higher than the current rate:

#### **NOTE 14: ACCRUED SICK AND VACATION BENEFITS**

The Borough does not permit employees to accrue sick and vacation time. Hence, employees are not compensated upon retirement for accrued time.

#### **NOTE 15: ECONOMIC DEPENDENCY**

The Borough of Stone Harbor is not economically dependent on any one business. The tourism industry is a major source of tax revenue for the entity.

#### NOTE 16: RISK MANAGEMENT

The entity is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

<u>Property and Liability Insurance</u> - The entity maintains commercial insurance coverage for property, liability and surety bonds. During the year ended December 31, 2019 and 2018 the entity did not incur claims in excess of their coverage and the amount of coverage did not significantly decrease.

The entity is a member of the Atlantic County Joint Insurance Fund (JIF) and the Municipal Excess Liability Fund (MEL) which also includes other municipalities throughout the region. The entity is obligated to remit insurance premiums into these funds for sufficient insurance coverage. There is an unknown contingent liability with the Atlantic County Municipal Joint Insurance Fund if there is a catastrophic insurance claim from any member of the fund. The entity has a general liability limit of \$100,000 under JIF, which increases to \$5,000,000 under MEL.

#### NOTE 17: DEFERRED COMPENSATION

Employees of the Borough of Stone Harbor may participate in a deferred compensation plan adopted under the provisions of Internal Revenue Code Section 457 (Deferred Compensation Plans with Respect to Service for State and Local Governments). The deferred compensation plan is available to all employees of the entity. Under the plan, employees may elect to defer a portion of their salaries and avoid paying taxes on the deferred portion until the withdrawal date. The deferred compensation amount is not available for withdrawal by employees until termination, retirement, death, or unforeseeable emergency.

An unrelated financial institution administers the deferred compensation plan. Under the terms of an IRC Section 457 deferred compensation plan, all deferred compensation and income attributable to the investment of the deferred compensation amounts held by the financial institution, until paid or made available to the employees or beneficiaries, are the property of the employees.

As part of its fiduciary role, the entity has an obligation of due care in selecting the third party administrator.

#### **NOTE 18: CONTINGENT LIABILITIES**

From time to time, the entity is a defendant in legal proceedings relating to its operations as a municipality. In the best judgment of the entity's management, the outcome of any present legal proceedings will not have any adverse material effect on the accompanying financial statements.

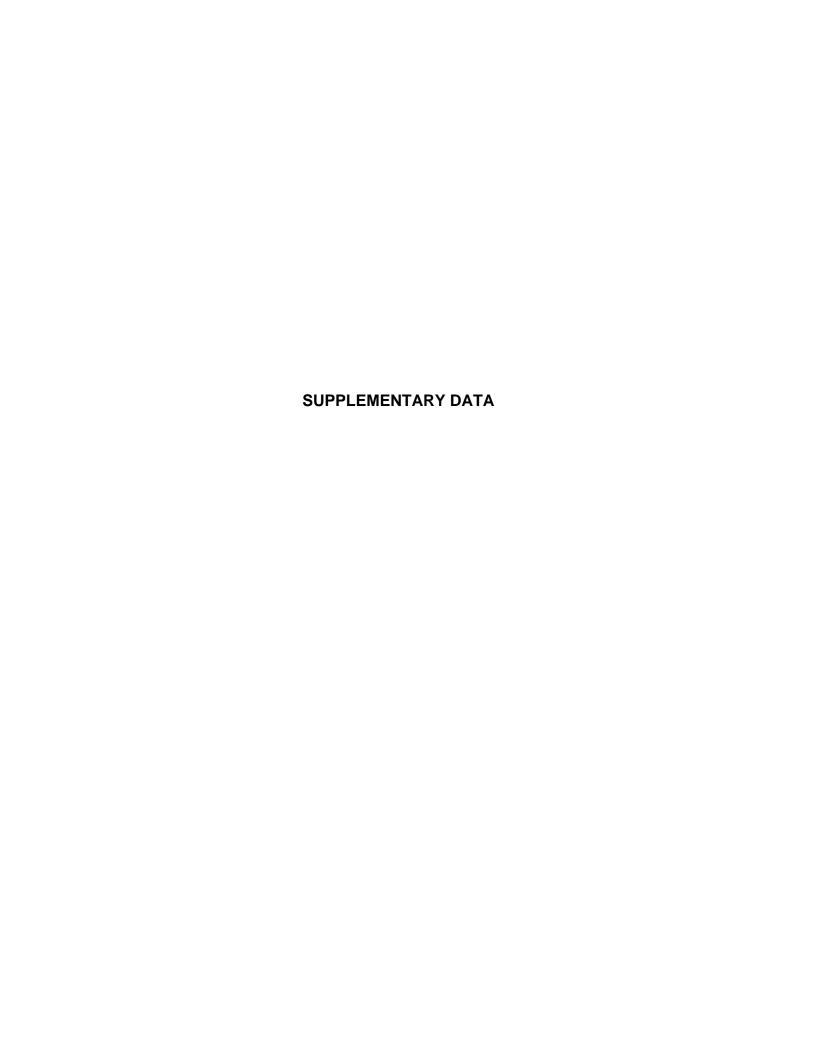

#### **NOTE 19: INTERFUND BALANCES**

#### Independent Auditor's Report

The Honorable Mayor and Members of Borough Council Borough of Stone Harbor, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the regulatory basis financial statements of the various funds and account group as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise Borough's basic financial statements, and have issued our report thereon dated July 10, 2020, which was adverse due to being presented in accordance with the New Jersey regulatory basis of accounting.

#### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Borough's control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Borough's internal control. Accordingly, we do not express an opinion on the effectiveness of the Borough's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Borough's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Very truly yours,

# **BOROUGH OF STONE HARBOR**

# PART II

# YEAR ENDED DECEMBER 31, 2019

### **GENERAL COMMENTS**

# Contracts and Agreements Required to be Advertised for N.J.S. 40A:11-4

N.J.S. 40A:11-4 states "Every contract awarded by the contracting agent for the provision or performance of any goods or services, the cost of which in the aggregate exceeds the bid threshold, shall be awarded only by resolution of the governing body of the contracting unit to the lowest responsible bidder after public advertising for bids and bidding therefore, except as is provided otherwise in this act or specifically by any other law". Due to the Borough having a Qualified Purchasing Agent, pursuant to N.J.S.A. 40A:11-3(a), the maximum bid threshold is \$40,000.

The governing body of the municipality has the responsibility of determining whether the expenditures of any category will exceed the bid threshold within the fiscal year. Where question arises as to whether any contract or agreement might result in violation of the statute, the Borough Counsel's opinion should be sought before a commitment is made.

Our examination of expenditures did not reveal any payments in excess of the bid threshold for the provision or performance of any goods or services, other than those where bids has been previously sought by public advertisement, awarded under state or county cooperative purchasing agreements, or awarded in compliance with other provisions of the "Local Public Contracts Law," N.J.S.A. 40A:11.

The minutes indicated that bids were sought by public advertising for the following items:

Beach Concession Bike Lane 94<sup>th</sup> & 114<sup>th</sup> Street Bulkhead 2019 Road Program 2020 Utility & Road Program

The minutes indicate resolutions were adopted and advertised authorizing the awarding of contracts or agreements for "Professional Services" per N.J.S. 40A:11-5.

### **Collection of Interest on Delinquent Taxes and Assessments**

The statute provides the method for authorizing interest and the maximum rates to be charged for the nonpayment of taxes or assessments on or before the date when they become delinquent.

The governing body adopted the following resolution authorizing interest to be charged on delinquent taxes:

**BE IT RESOLVED** by the Mayor and Council of the Borough of Stone Harbor, County of Cape May and State of New Jersey, in accordance with Chapter 75, New Jersey Laws of 1991, and N.J.S.A. 54:4-67, 54:5-32, 54:5-34 and 54:5-35, which authorizes the Governing Body inter alia to fix the rate of interest to be charged, in the Borough of Stone Harbor, for the nonpayment of taxes, assessments and municipal charges, said rate of interest shall be and is hereby fixed at 8 per cent per annum on the first \$1,500 of delinquency and 18 per cent per annum on any amount in excess of \$1,500 to be calculated from the date when the taxes, assessments and charges become delinquent.

**BE IT FURTHER RESOLVED** by the Borough Council of the Borough of Stone Harbor, in accordance with N.J.S.A. 54:4-67, Chapter 75, New Jersey Laws of 1991, and Chapter 32, New Jersey Laws of 1994, which permits a 6 per cent penalty on taxes and municipal charges greater than \$10,000 as of the close of the fiscal year, that said end-of-year penalty shall be fixed for the Year 2018.

It appears from an examination of the collector's records that interest was charged in accordance with the forgoing resolution.

# **Delinquent Taxes and Tax Title Liens**

The Tax sale was held on September 18, 2019 and was complete.

The following comparison is made of the number of the tax title liens receivable on December 31 of the last three years:

<u>Year</u>	Number of Liens
2019	1
2018	1
2017	1

## **Verification of Delinquent Taxes and Other Charges**

A test verification of delinquent charges and current payments was made in accordance with the regulation of the Division of Local Government Services, including the mailing of verification notices as follows:

<u>Type</u>	Number Mailed
Payment of 2020 and 2019 Taxes	10
Delinquent Taxes	5
Payment of Utility Charges	5
Delinquent Utility Charges	5

## **Comparison of Tax Levies and Collections Currently**

A study of this tabulation could indicate a possible trend in future tax levies. A decrease in the percentage of current collection could be an indication of a probable increase in future tax levies.

## **Uniform Construction Code**

The Borough of Stone Harbor construction code official is in compliance with uniform construction code rules NJAC 5:23.17(b)2 and NJAC 5:23.4.17(b)3.

# **Deposit of Municipal Funds**

## N.J.S.A. 40A:5-15 states:

- "All moneys, including moneys collected by taxation, received from any source by or on behalf of any local unit or any board or department thereof shall, within 48 hours after the receipt thereof, either
  - a. be paid to the officer charged with the custody of the general funds of the local unit, who shall deposit all such funds within 48 hours after the receipt thereof to the credit of the local unit in its designated legal depository, or
  - b. be deposited to the credit of the local unit in its designated legal depository."

Our examination revealed that municipal funds were deposited within the mandated time.
