Subject: USACOE Back Bay Study

Listed below is the summary of the May 19, 2021 Webex call regarding the United States Army Corps Back Bay Study from Monmouth County South to Cape May. The link to the presentation is: [NIBB Task 7 Modeling Final Report June 2020.pdf \(army.mil\)](#).

1. **Purpose:** The study was authorized to provide methods to reduce coastal storm risk and is not intended to address nuisance flooding.
2. **Cost Share:** 50% Federal/ 50% State (there is no municipal cost share for study).
3. **Timeline:** The study was authorized/began in 2016 and is expected to be complete in 2023 with construction to commence upon funding approval in 2030.
4. **Current Status:** The USACE is currently selecting the TSP (tentatively selected plan) and will be announcing it this July.
5. **Expectations:** It is expected that the TSP will include storm surge barriers at the major inlets, construction of natural barriers such as habitat living barriers, horizontal levies, island expansions and dune enhancements. This will include the use of beneficial use material from dredging. The raising of evacuation streets and home raising is expected to be part of this plan and would be cost shared as listed below.
6. **Major Revision:** Flood Walls are eliminated (these were originally discussed and would not be favorable to our bayside homeowners as they were 14 ft walls.)

Once the study is complete and construction planned, it is anticipated that the municipal cost share would be 25% of the state's share or about 8.75 cents on the dollar. I will incorporate this update into my report for Council at next Tuesday's meeting. Please let me know if you have questions.

Thank you,

Marc DeBlasio, PE, PP, CME
President

Subject: Stone Harbor Elementary School Carnival

Dr Murtaugh,

I do not see any issues with your request! I am adding Jenny Olson and Tina Prickett to this email so they can make sure everything is properly circulated, signed off on and presented to Council. In addition I have added Suzanne Stanford, Carrie Bosacco and Bob Smith. Every base is now covered!

Sue,

Please add a motion to the meeting on June 1 for approval since our next meeting is the same day as the Carnival and it will actually be over by the time we meet! In addition add "Stone Harbor Elementary School Carnival" under DISCUSSION in the work session.

Sincerely,

Judith M. Davies-Dunhour, Mayor
Borough of Stone Harbor

Subject: June 15th, rain date June 16th

Good Morning,

We will be holding our annual PTC Carnival on Tuesday, June 15th. We had to change it up this year and not invite parents or mix groups outside due to Covid restrictions in schools. We have decided to add some beach time into the Carnival Day. Is there a way that my teachers can get on the beach without a tag that day? I have one season pass that I could give the teacher that will be there all day, but the ones that are bringing their classes up to participate in the activities will not have one.

Also, I am attaching a schedule. We will be having one group walk to the beach at 9:00 and then back at 9:50, then another going at 10 and then back at 10:50, and the last group at 11:00 and then back at 11:50. Each grade level will have two teachers with them so they should be fine, but I was hoping the police could keep an eye out if they are not on a call during the transition times.

I also wanted to see if we could borrow 4 sets of corn hole games for the school that day to add to the events of the carnival on our school grounds. Let me know.

We are excited to offer these fun filled days to our students, thank you so much for your help with this!

--

Dr. Reneé Murtaugh
Supervisor of Curriculum and Instruction
